RODNEY SMITH,
CHARLES P. PIKE,
} Trustees.

Charles P. Pike, Secretary.

Hillsborough, March 1, 1887.

SCHOOL REPORT.

GENERAL REMARKS.

Agreeably to the laws of the State, we present a report of the schools of the town district as conducted by the school board under the laws of 1885. We have had in most of the schools sixteen weeks of five days each. In Nos. 12 and 16 one term of nine weeks each; in No. 6 an extra term of six weeks, using money that would have been appropriated in No. 19 had there been a school there, making twenty-two weeks school in No 6. There were teachers employed in Summer thirteen, in Winter fifteen, and one in the Fall. Total number of terms twenty-nine; there were no schools in Nos. 7, 13 and 19. The average expense of the schools per month each, was (wages and board,) $18.15. We employed what teachers we could in town, and we believe that our schools have made as good progress in their studies as has been in previous schools. If the terms could have been longer, the results would have been better.

If the district would raise some few hundred dollars in addition to what the law requires, we believe it would be a good investment for the rising generation. Some of the school-houses are in a very dilapidated condition, utterly unfit to be occupied by teacher and scholars, and we believe such houses should be repaired or the schools discontinued. As we have remarked, we believe the general condition of our schools is good, and will compare favorably with those of former years—still there is chance for improvement. The highest praise or harsh criticism would alike be inappropriate and unjust. There are in-

stances of partial failure, but can we reasonably expect at eighteen dollars per month perfection in teachers, more than in those pursuing other vocations. Our motto should be to get as near perfection as we can, then make the most of what we do get. Our common school system, since its first introduction, has no doubt been greatly improved; but the question may arise, have we kept pace with the improvement? or, as new methods and means for gaining knowledge have been invented and applied, individual effort and ambition have not, in a proportionate ratio, abated on the part of learners? Other causes which have prevented the best results in our schools remain the same, and have the same injurious effect. Among these might be mentioned indifference at home, unjust criticism of teachers and a diverted attention of scholars.

We have for convenience, designated each school by its corresponding number, under the old district system. We are pleased to find recorded upon the roll of perfect attendance, the following names:

DISTRICT NO. 2.

One term—Bertha M. Brown, Carrie L. Burnham, Herbert M. Knapp, Eddie M. Knapp.

DISTRICT NO. 3.

One term—Edward M. Scribner, Eva A. Scribner, George H. Scribner, Burton B. Scribner, Juliette Cate.

DISTRICT NO. 4.

Two terms—Emma L. Codman, George H. Bumford, Willie G. Codman, Ida B. Martin.

One term—Helen N. Adams, Emily M. Kimball, Harland P. Colby, Warren A. Kimball, Ira J. Kimball, Bates Kimball, Nellie J. Craige, Grace I. Mills.

DISTRICT NO. 5.

Two terms—Paul L. Aldrich, Stella E. Shedd, Elmar I. Shedd.

One term—Joseph Silver, Charles Silver, Jessie W. Aldrich, Nellie Silver, Neddie J. Silver.

DISTRICT NO. 6.

Three terms—Mary I. Hoyt, F. Gertie Manahan, Scott Gibson, Carrie M. Proctor.

Two terms—Jennie D. Hoyt, Carrie C. Ferry, Mertie A. Ferry, Alma F. Jackman, Bertha V. Jackman, Ralph H. Moore, Willie H. Manahan, Charlie J. Moore.

One term—Jennie Gay, Nina A. Ferry, Alice M. Jackman, Julia M. Adams, Ira S. Jackman, Charlie C. Ferry, Jennie C. Butterfield, Ida B. Blood, Julia A. Adams, John Hoyt.

DISTRICT NO. 8.

One term—Josephine Lewis, Ralph Craige, Irving Craige.

DISTRICT NO. 9.

One term—Carrie B. Temple, Fannie E. Temple.

DISTRICT NO. 10.

Two terms—Fred S. McClintock, Lillian M. Carter, Alice E. Hawkins, Minnie M. Pond.

One term—Emma L. Owens.

DISTRICT NO. 11.

One term—Ethel Gay, Jennie H. Hastings, Mary W. Hastings, Lizzie Belle Gay, Eddie J. Glawson, Elwin Gammell, Myron Gammell.

DISTRICT NO. 14.

Two terms—Alice J. Whitcomb, Nellie F. Whitcomb.

One term—Clara L. Davis, John A. Whitcomb, Fred E. Whitcomb.

DISTRICT NO. 15.

Two terms—Grace Murdough, Charlie P. Farrah, Merton D. Farrar.

One term—George A. Progin, Cyrus Progin.

DISTRICT NO. 16.

One term—Fred W. Grinnell.

DISTRICT NO. 17.

One term—Brooks D. Cook, Olive S. Cook.

DISTRICT NO. 2.

Summer term, taught by Mittie F. Clark of Henniker, a lady of quiet manners, who found that many of the pupils in this school had made the too common error of getting half through their arithmetic before committing to memory the multiplication table. She had them rectify this mistake and we could see at the closing examination that very good progress had been made.

The Winter term was taught by William F. Farrar of Henniker. This was Mr. Farrar's first experience in teaching. The school appeared well, both teacher and scholars working in harmony, and as a result a very successfnl and profitable term. F.

DISTRICT NO. 3.

Both terms taught by Belle B. Morrison of Henniker. It is my opinion that Miss Morrison did well and is naturally adapted to the position. The school made good and commendable progress. F.

DISTRICT NO. 4.

Summer term, taught by Miss Lottie M. Gibson of this town, who is a good teacher; government excellent, and everything in the school moves on with an easy precision, peculiar to herself. The pupils made good progress, as they could not avoid under the care of as capable a guide.

Winter term, Miss Katie A. Coolbeth teacher. This was Miss Coolbeth's first experience in teaching. She worked hard to succeed and though she failed to accomplish as much as could be expected, am of the opinion, that could she and the parents have better understood each other, she would have done better than appearances proved. *All are not born to be teachers.* B.

DISTRICT NO. 5.

Summer and Winter terms taught by Miss Mabel F. Shedd of Hillsborough; a very energetic teacher, laboring faithfully in the school-room for the good of her pupils, and fair progress

seemed to be made in all the studies pursued in the schools. If Miss Shedd had established a little more *discipline*, they would have been all that could be expected. H.

DISTRICT NO. 6.

Summer term was taught by Miss Kate L. Gibson of Hillsborough. She is a good worker, gaining the good will of all, and the advancement made was very satisfactory.

Fall term, taught by Miss Carrie Gould, of Washington. Miss Gould is a fine scholar, and accomplished as much as could be six weeks, the length of that term. With experience Miss G. will make a first-class instructress.

Winter term, taught by Miss May L. Brown of Candia. The appearance of this school was fine! Good order without any compulsion; mutual regard existing between teacher and pupils. Miss Brown is an excellent scholar, and her methods excellent. The improvement was rapid and thorough. Any district is fortunate who may secure her services. B.

DISTRICT NO. 8.

Summer term, taught by Miss Julia M. Gay of the Centre. A very excellent teacher. Progress and deportment satisfactory.

Winter term, taught by Miss Kate B. Hazen of Hillsborough. This was her first attempt at teaching. The school appeared well at the close. H.

DISTRICT NO. 9.

Summer term, Miss Nellie Barker of Antrim, as teacher. This is a small school and that may account for the ordinary success of all concerned.

Winter term, taught by Miss Alice Perry of the Centre. This teacher *works hard* and perhaps is over anxious. Fair order, and the progress commendably thorough. B.

DISTRICT NO. 10.

Summer term taught by Miss Alice Perry of the Centre. Miss Perry tried hard in this school, but did not succeed in keeping as good order as is necessary for the greatest success;

still the advancement was praiseworthy. This teacher will improve by experience.

Winter term, Miss Angie I. Marcy of the Bridge, teacher. Her discipline brought this school into the right kind of order. The improvement was all that could be expected, and creditable to both teacher and pupils. A good teacher. B.

DISTRICT NO. 11.

Summer term, taught by Miss Amy L. Story of the Bridge. This school has been called somewhat rough, but Miss Story being a teacher of experience and pluck, found no trouble in managing the school, laboring diligently for the benefit of her pupils. The term was a succcess.

Winter term was under the instruction of Miss Gertrude Moulton of Manchester, a very active, energetic teacher, working hard to establish and maintain good order in the school-room, with some degree of success. The school made a very good appearance at the close. H.

DISTRICT NO. 12.

One term only in this district, taught by Miss Etta L. Gile of this town; a very small school, and a miserable old house, entirely unfit for a school. Miss G. exercised both patience and perseverence, in spending her time six hours per day for forty-five days, with five scholars, (the most), and owing to the sickness of a parent, one of those was oblighed to stay out a part of the term. The school appeared to have made good progress at the close. H.

DISTRICT NO. 14.

Both terms taught by Lizzie R. Jones of Hillsborough. This school though small in numbers made good progress, and the quiet and orderly conduct of the pupils, spoke well for both teacher and scholars. This school-house between the storms that have beaten upon the exterior and the strife for knowledge in the interior, begins to show *most visibly* the marks of age, and ere long will no doubt be numbered with the things that were. F.

DISTRICT NO. 15.

Summer term, taught by Mrs. A. P. Farrar of this town. There is an ancient proverb, "Let another one praise thee and not thine own lips," and as it contains more truth than either fiction or poetry, we will adopt the proverb and let the school speak for itself.

Winter term, Mary L. Bowles of Deering, teacher. This is the third term tanght here by Miss Bowles, and I think the parents and scholars were well pleased in securing her services. Good discipline and thorongh instruction characterized the school. F.

DISTRICT NO. 16.

One term only, in this district, taught by Miss Mabel F. Shedd of Hillsborough. A small school and apparently not much interest, either by some of the scholars or those that have the care of them. The school appeared quite as well as conld have been expected at the close. Good progress was made in arithmetic. H.

DISTRICT NO. 17.

Summer term, taught by Miss Maribelle Curtis of this town. A very good teacher, and the term seemed a profitable one to the scholars. If Miss C. continues in the work, we doubt not, she will make one of the best.

The Winter term was in charge of Miss Lillian S. Wilkins of East Boston. This school appeared well at the close. Deportment and progress good. H.

DISTRICT NO. 18.

Summer term, taught by Hattie J. Clark of Henniker. This lady is young and a beginner, yet possessing the beginner's advantage of enthusiasm and ambition. Succeeded well.

Winter term taught by Cora L. Peaslee of the Bridge. The scholarship of this teacher is good, and fair progress was made. There seemed to be however, a lack of that genial feeling which we would like to have seen between the teacher and the smaller scholars. F.

Respectfully submitted,

EDGAR HAZEN,
ALDEN P. FARRAR,
FRANK J. BICKFORD,
School board of the town of Hillsborough.

Hillsborough, February 22, 1887.

STATISTICAL TABLE.

Marcellus H. Felt,
George E. Gould,
Freeman C. Adams,
Fred. W. Flint,
Trustees.

Marcellus H. Felt, Secretary.

Hillsborough, March 1, 1888.

Report of the Board of Education of Hillsborough Bridge.

HIGH AND GRAMMAR DEPARTMENTS.

More than a year ago these two departments were to a certain extent consolidated but without changing or curtailing the course of study in either. With Mr. Dana G. Marble, principal and teacher of the High School, and Miss Ada H. Buxton, the faithful and efficient teacher of the Grammar Department, the above change has proven a success and will probably be continued until the increasing number of students make some other change necessary. At the close of the spring term in June, 1887, the first class, four in number, was graduated from our High School with a standard of scholarship equal to many an older institution.

The death of Mr. Marble, who had been for two years principal, was a great loss to the schools. For months failing health should have admonished him that rest was necessary, but to anxious inquirers after his health, always giving the cheering reply of "Oh, I'm gaining now," with an indomitable will and contrary to the advice of friends he continued his labor until physical nature could no longer endure the strain, and at the close of school, Jan. 23d, completely exhausted, he staggered to his home, his vital forces too prostrated to longer obey their stern master, the will, yet cheerful with hope he remained quiet and comfortable till the evening of the 28th inst. when he was taken suddenly and severely worse, and in distress lingered till the morning of the 29th inst., when he passed the "portals we call death" in peace.

Fortunately the Board of Education secured the services of Mr. Harry E. Loveren to complete the term, which he did in an entirely satisfactory manner.

INTERMEDIATE DEPARTMENT.

Miss Marion A. Moore has taught this department for three years and by her energy, unceasing efforts and superior methods has raised the school to a high standard of excellence.

PRIMARY DEPARTMENT.

At the close of the fall term Miss Clara F. Potter, who had successfully taught this department for four years, was on account of failing health obliged temporarily we hoped to resign her position, but Miss Potter's sixteen consecutive terms of unceasing and unselfish devotion to her charge had insiduously but surely impaired her health, and with sorrow we announce that her illness proves to be severe and protracted, in consequence of which the district must loose her services for we know not how long. The winter term was taught by Miss Lillian S. Wilkins, of Boston, Mass., whose diligent and persevering efforts made the term a successful one.

M. H. Felt, for the Board of Education.

SCHOOL REPORT.

We hereby submit our second annual report of the schools of the several divisions of the town district, as required by the laws of the State. We have had in all twenty-nine terms of school, the expense of which find submitted. There have been nineteen weeks school in most of the divisions for the year. In two there has been money or board contributed, and these schools were accordingly, besides voting to raise extra money for school purposes. We think, as a rule, the schools were satisfactory to both parents and scholars, and that none have reason, to regret the raising of a little extra money for our schools. We believe they were fully equal to the records of previous years, and we think that money contributed and appropriated to the education of the rising generation is *never* to be regretted, and we *earnestly* hope our people will try and raise as much for the

coming year as in the past. Bear in mind, that a set of teachers never was, nor ever can be employed to just suit the particular ideas of every individual in interst. But be assured, that every effort will be made by your school board to secure the services of the best teachers that can be had for the money to be appropriated.

DIVISION 2.

Summer term. Miss Flora Brown teacher. A small school of only five scholars; but teacher and scholars seemed to labor together and the term of eight weeks was a pleasant and profitable one in our opinion to all concerned.

Winter term, taught by Lilla M. Felch, a term of eleven weeks. At our first visit at the commencement, it appeared well, and the closing examination showed good progress made.

F.

DIVISION 3.

Summer term, eight weeks, taught by Miss Mabel Shedd, of Hillsboro'. The school appeared orderly and quiet and fair progress was made. Miss Shedd we think seems at home in the school room and has the faculty of gaining the good will of the pupils.

Winter term of eleven weeks, taught by Miss Sadie Gould, of Hillsboro'. The school appeared well at each of our three visits, and notwithstanding the register showed a great many absences, we must report good order and commendable progress.

F.

DIVISION 4.

Summer term, taught by Mr. Charles Osborne, of Weare. Mr. Osborne came well recommended, but the old saying is true, that, "All's well, that ends well." Mr. Osborne closed his school the last day at noon, making the excuse that "it was usual to give that afternoon to the pupils, for a picnic, &c." It must be and *ancient custom* as your committee has never heard of it before; so there was no school to examine, and its appearance at the beginning and the current reports in the district, make it necessary to remark, that this was Mr.

O's first attempt at teaching school, and *should be his last.*

Winter term, taught by Miss Mabel F. Shedd, of Hillsboro'. Miss Shedd is a good worker ; good order prevailed and thorough instruction was rewarded by commendable progress. Pupils and teacher were mutual in their efforts. B.

DIVISION 5.

Two terms, taught by Miss Lillian S. Wilkins, of East Boston ; a teacher having been tried and not found wanting. This school is small in number, but having a very comfortable house, an efficient, painstaking teacher, both terms at the close were satisfactory. H.

DIVISION 6.

This district had three terms of school, taught by Miss May L. Brown, of Candia, who taught the Winter term last year. This teacher maintained her former well earned reputation ; and in fact, so overworked herself as to be oblighed to close the the last term two weeks before it should have been and go home sick. It is to be hoped that she will recover her health and return to continue her vocation, as a teacher of rare accomplishments. B.

DIVISION 8.

Summer term, 8 weeks, taught by Miss Hattie M. Temple, of Hillsboro'. A very quiet, easy teacher, gaining the good will of her pupils, and the examination at the close showed that the school had been a profitable one.

Winter term, eleven weeks, Miss Etta L. Gile, teacher. The school appeared well at the close. Miss G. seemed to have made a strong effort for the benefit of her pupils, and marked improvement was the result. H.

DIVISION 9.

The three terms of this year were taught by Miss Alice Perry, of the Centre. She is willing and energetic. Good advancement was made and satisfaction given. Amount contributed, board, $38.00. B.

REPORT OF THE SCHOOL BOARD.

The school board of the town school-district of Hillsborough respectfully submit the following report concerning the condition of the public schools therein for the school year ending March, 1889:

We believe the schools of the district have passed through the year with encouraging results; and, though there may have been instances of partial failure, yet on the whole we think they are in excellent condition. We have introduced the new Franklin Series of Readers, making an even exchange for the old ones, of which there were some four or five kinds used in the district, gaining not only a new and interesting book, but producing a greater interest by the improved classification.

The attendance in some of the schools has been a matter of congratulation, especially in Divisions 2, 5, 15, and 16, making in these schools almost a perfect attendance; while in some we regret to say we find the registers show a large amount of absences and cases of tardiness. We kindly ask the parents, and those who have children under their charge, to try and remedy this evil; for we believe, by taking more pains and starting the children earlier, they might be taught habits of promptness that would go with and be of great value to them through life. The schooling would be of more advantage, the registers look a great deal better, and, instead of a fourth part of the pupils who are now upon the roll of perfect attendance, we might place the whole or nearly all there.

Let us one and all lend them a helping hand, not only by giving them an encouraging word around the fireside, but by visiting the schools oftener and speaking a word of praise and encouragment when it is due.

Our intercourse with teachers and scholars of the district has been pleasant and agreeable, and we *carefully*, and, we trust, faithfully, make the following detailed report:

DIVISION 2.

Summer and winter terms, taught by Flora M. Brown, to the entire satisfaction of all concerned.

DIVISION 3.

Summer term, taught by Mary L. Bowles, of Deering, whose work here sustained her previous good reputation as a teacher, and proved to all that she is well adapted to govern and to teach. We hope to secure her services in the future.

Winter Term.

Mittie F. Clark, of Henniker, teacher. There was some little insubordination manifested by some of the scholars, but the teacher labored hard, and carried the term through with success.

DIVISION 4.

Miss Sadie M. Gould, of Hillsborough, taught this school. This teacher, as well as the pupils, did a fair amount of work, but nothing remarkable, considering the capacity of the scholars.

Winter term taught by Arthur M. Burnham, of Hillsborough. This was his first experience in teaching, and the success was all that might be expected. It must be remembered that "Order is Heaven's first law," and the neatness of the school-room should go hand in hand with good order.

DIVISION 5.

Summer term, taught by Miss Hattie M. Temple, winter term, by Miss Etta L. Gile, both of Hillsborough. This school is small, there being but three scholars at the last term. They made a good showing at the close of each term. We think, perhaps, it may be best to discontinue this school for the present, as the scholars may be reasonably well convened in Divisions 6 and 11.

Division 6.

Summer and winter terms, taught by Miss Lucy A. Eastman, of Weare. The experience, scholarship, and energy of this teacher give her a rank among the first in the profession. Her methods and thoroughness are worthy of imitation; and it is a positive truth that pupils catch the ambition displayed by the teacher. They made remarkable progress, and both summer and winter examinations did great credit to both teacher and pupils.

Division 8.

Summer term, taught by Miss Etta L. Gile, fall term, by Miss Annie B. Hazen, both of Hillsborough. The examinations at the close of these schools were creditable to both teachers and pupils.

Division 9.

Summer, fall, and winter terms, taught by Miss Alice M. Perry, of Hillsborough. Miss Perry has taught seven successive terms in this school, and given good satisfaction. If the pupils retain all that they have been over, it is very creditable. The maxim is, "Not how much, but how well." This teacher is well adapted to this school, and the examinations were good.

Thirty dollars were contributed in this division to prolong the school.

Division 10.

Summer and winter terms, taught by Miss Angie I. Marcy, of Hillsborough Bridge. This is her fifth term in No. 10, and proves well the fact that to continue the services of a good teacher is the most profitable. This teacher is very tenacious, in her perseverance, to make all principles clearly understood; therefore thoroughness is characteristic of all her labor, and the school a brilliant example of first-class work, as was clearly perceptible at each examination.

Division 11.

Summer term, Miss Julia M. Gay, teacher, who was well qualified and well adapted to the school-room. This school was

closed one week earlier than it would have been on account of sickness, consequently there was no examination at the close.

Winter term, taught by Miss Jennie H. Hastings, of Hillsborough. The examination at the close of the last term was highly creditable to the teacher and the pupils.

Division 13.

One term taught by Hattie J. Clark, of Henniker. Examinations were good, and the parents and citizens that were present showed there was an interest felt in the education and training of the children.

Division 14.

Louise A. Wilkins, of Hillsborough, teacher. This was Miss Wilkins's first attempt at teaching. Good progress was made, and the term proved a profitable one to all concerned.

Winter term, taught by Perry M. Gould, of this town. The school appeared well at our visits, and passed a creditable examination at the close.

Division 15.

Summer term, Lizzie M. Doyle, teacher. This was Miss Doyle's first term in the school-room as teacher. She labored hard and earnestly, with very good results.

Winter term, under the instructions of Miss Carrie M. Proctor, of Hillsborough. This was also Miss Proctor's first term of teaching, but we hope it may not be her last. Gaining the good-will of her pupils, her labors were crowned with success.

Division 16.

Two terms, taught by Miss Hattie M. Sturtevant, of Hillsborough, this making four terms taught by her, with entire satisfaction to parents, pupils, and the school board.

Division 17.

Summer and fall terms, taught by Miss Jennie M. Carr, of East Washington. Miss Carr needs no recommendation from us at this time, having been teacher in this school several terms

before, and well sustaining her previous reputation as a teacher. The examination at the close of each term was superlative as regards discipline and advancement.

DIVISION 18.

One term, taught by Hattie J. Clark, of Henniker. A small school, but at our visits the pupils were orderly and quiet; and we report fair progress made.

EDGAR HAZEN,
FRANK J. BICKFORD,
ALDEN P. FARRAR,
School Board of Hillsborough.

VILLAGE SCHOOL-DISTRICT.

C. H. Quinn, treasurer for the board of education, respectfully submits the following report for the year ending February 26, 1889, as per vouchers:

REPORT OF THE BOARD OF EDUCATION OF HILLSBOROUGH BRIDGE.

We submit our brief annual report of the schools of this village with feelings of congratulation to parents and gratitude towards teachers.

The work of the past year has been pleasing to your committee, and evidently satisfactory to parents, if we may judge of their satisfaction from the fact that there has been no complaints made to your committee, either by parents of teachers, or teachers of parents or pupils, during the whole year, this being a decided exception to all other years since our connection with the schools.

The steam heating apparatus has made teachers and pupils comfortable in the coldest weather, and is proving an economical investment for the district. The house is now supplied with aqueduct water, and as yet we see no reason to regret its introduction. An outlay of a few dollars for illustrative and explanatory apparatus would make our school-house one of the best equipped in the state.

M. H. FELT,
For the Board of Education.

ROLL OF PERFECT ATTENDANCE AT HILLSBOROUGH BRIDGE SCHOOLS.

Primary.

First Term.

Willie F. Bennett,
Carl Clough,
Willie E. Cochran,
Zadie Travis,
Lora Brown,
Nellie Gilcreast,
Gracie McGravy,
Ora Plummer,
Annie Reade,
Blanch Reade,
Maud Town,
George Thornton.

Second Term.

Harry Cross,
Jimmie Cusick,
Hattie Greguire,
Zadie Travis,
Gracie Ward.

Third Term.

Willie F. Bennett,
Jimmie Cusick,
Harry Fitch,
George Greguire,
Harry Pillsbury,
Flora Barnes,
Lora Brown,
Gracie Fitch,
Belle Kendall,
Gracie Ward.

INTERMEDIATE.

First Term.

Laura Blood,
Queenie Black,
Agnes Dowd,
Willie Denison,
Cecil Grimes,
Hubert Goodale,
Harry Gove,
Jacob Hemphill,
Bertie Loveren,
Ira Roach.

Second Term.

Hubert Goodale,
Maud Town,
Nellie Gilcreast,
May Childs,
Vinnie Boutwell,
Willie Rawley,

Third Term.

Laura Blood,
Agnes Dowd,
Maud Town,
Hurbert Goodale,
George Kent,
Ira Roach.

GRAMMAR AND HIGH.

First Term.

Ervin McAdams,
George Gilcreast.

Second Term.

Edward M. Barnes,
John Mossia,
Frank Sullivan,
Ira G. Brown,
Lula Fisk,
Lelia Fisk,
Mary Fisk,
Blanch Whitaker,
Emily Kimball,
Lenora Gould.

Third Term.

Franklin Brown,
Fred Carter,
Fred Gile,
Frank Hankey,
Gilbert Loveren,
John Mossia,
Charles Perry,
Frank Sullivan,
George Wadleigh,
Ina Brown.

REPORT OF THE TRUSTEES OF THE FULLER PUBLIC LIBRARY.

The Board of Trustees of the Fuller Public Library of Hillsborough beg leave to submit the following report:

Books purchased during the year 154 vols.
" donated during the year 16 vols.
Whole number books in library 2394 vols.

During the year ending March 1, 1888, books were presented to the library by Hon. J. F. Briggs, Mrs. F. C. Potter, and Dr. G. P. Conn; and during the past year by Hon. J. F. Briggs, Dr. G. P. Conn, Mr. Solomon McNiel, Mr. Mason Cooledge, Mrs. Anna Wentworth, Mrs. Sybil Butrick, and Mr. Solon Newman.

Owing to the continual requests of the patrons of the library and the very evident need thereof your trustees have prepared a new catalogue of the library books which is now or soon will be ready for distribution. The cost of recataloguing was considerably more than was at first anticipated, but as no printed supplements have been issued in the past two years and the expense of purchasing the yearly supply reduced to the minimum, the outlay for the new catalogue is not deemed unreasonable when we consider the demands of increasing patronage and yearly increase of books to the extent, as regards the latter, that there is absolutely no further room for more in the present quarters.

There are funds amounting to $5.14 in the hands of the secretary.

Respectfully,

CHARLES W. CONN,
MARCELLUS H. FELT,
GEORGE E. GOULD,
FREEMAN C. ADAMS,
FRED W. FLINT,

Trustees.

MARCELLUS H. FELT,
Secretary.

Hillsborough, March 1, 1889.

REPORT OF THE TRUSTEES OF THE FULLER PUBLIC LIBRARY.

The Board of Trustees of the Fuller Public Library beg leave to submit the following report:

Books purchased during the year,	168 vols.
Books donated " " "	43 vols.
Whole number books in library,	2605 vols.

During the year books have been presented by Hon. J. F. Briggs, 19 vols.; Mrs. Susan E. Grey, 18 vols.; Mrs. F. E. Potter, 3 vols.; State of New Hampshire, 2 vols.; Mr. J. A. Hamilton, 1 vol.

Cash on hand March 1, 1889,	$5 14	
received from Selectmen,	180 00	
		$185 14
Cash paid for books,		180 91
Balance on hand March 1, 1890,		$4 23

Some additional expense has been incurred in fitting up the new room, which was unavoidable, owing to the growth of the library.

Respectfully,

CHARLES W. CONN,
MARCELLUS H. FELT,
FREEMAN C. ADAMS,
FRED W. FLINT,
WALTER J. FARRAH,
Trustees.

MARCELLUS H. FELT, Secretary.
Hillsborough Bridge, March 1, 1890.

REPORT OF THE SCHOOL BOARD.

In submitting our Report, as the school year closes, we feel confident in saying that the schools throughout the town-district, taken as a whole and averaged, have done *good work*. The lack of money raised, made the schools short, only one term in each Division, and in as few Divisions as possible, and in such a short time, but a limited advancement could be made; yet all was accomplished that could reasonably be expected. In several of the Divisions they saw the mistake in not making an appropriation, and had extra terms, by subscription, which exhibits a spirit to educate the rising generation. When people put their hands in their pockets, they are in true earnest. We think that those who vote against raising money for school purposes vote a much larger per cent. out of their own interests than their tax would be, besides robbing the children. "Ignorance" may be "bliss" in some instances; but certainly "Knowledge is power," and it is far cheaper to educate the youth at home, and better for numerous reasons. The Common School education is the foundation for greatness.

Look through the whole United States and see how many of our New Hampshire men are holding important offices. New Hampshire is more largely represented than any other state in the Union, and you know how it compares in size with the others. We are an ambitious people. The energy that it requires to get a living in New Hampshire develops a courage that tells for a lifetime, and is transmitted from generation to generation. Then give the youth a chance; they will be leaders, rulers, and maintain the already well earned reputation that "New Hampshire is a good state to emigrate from." Though many find their level at home; proving the exception

to the rule, that "A prophet hath no honor in his own country." We are only one town in the State, but constitute our part of the whole. And now will each voter look with interest upon the matter of schooling, and endeavor to see it in its true light, for the future? If we raise more men with the intelligence of Daniel Webster, Franklin Pierce, Benjamin F. Butler, Horace Greeley and many more that we need not mention, we *must* educate the children. Again we repeat it: Give them a chance, they will not disappoint us!

Division 2.

First term, taught by Miss Lora Abbott, with good satisfaction to all concerned. The parents in this district not only gave the fuel and teachers' board but also furnished funds to lengthen the term two weeks.

Second term, taught with very good and satisfactory results, by Miss Lelia Fiske, of Hillsborough. F.

Division 3.

Taught by Miss Julia A. Rice, of Henniker. Miss Rice came well recommended, and is a hard worker in the school-room, leaving nothing undone that she could do for the good of her pupils; but where a part of the scholars lack both in *energy* and *self-respect*, success is hard to attain. F.

Division 4 and 10.

Taught by Miss Angie I. Marcy, of Hillsborough Bridge. Miss Marcy is well known in town as a teacher, and is one of the best. Her methods are first class and both schools made rapid progress. To secure her services warrants a thorough, practical, hardworking teacher, who understands how to interest the pupils in co-operating with her. B.

Division 5.

School taught by Miss Jennie H. Hastings, of Hillsborough Centre. Length of term, 11 weeks; number of scholars, 8. The school appeared well at the close; the examination creditable. The Division furnished both wood and board, free. H.

Division 6.

This school was taught by Miss Lucy A. Eastman, of South Weare. Miss Eastman taught this school last year, doing great credit to herself and pupils. This year this Division contributed $129, which, combined with the school money, gave them three terms. We think that the money was well invested. The scholars worked hard, and seemed to realize that it was their time to work, while under the instruction of so able and impartial an instructress. B.

Division 8.

This school was commenced by Miss Anna L. Chamberlin, of East Washington, and failing to satisfy the scholars and their parents, was dismissed at the end of two weeks, and the services of Miss Effie S. Johnson, of Bradford, were secured. The result was a very good school, giving entire satisfaction to both scholars and their parents. Length of term, 12 weeks.

H.

Division 9.

Miss Carrie M. Proctor, of Hillsborough, teacher. This teacher was young in experience; yet she had the faculty of gaining the confidence and good will of both pupils and parents. The school made marked improvement. The examination at the close was very satisfactory, and exhibited hard labor by both teacher and pupils. This Division contributed $33. B.

Division 11.

Miss Fannie G. French, of Hillsborough Upper Village, teacher. This Division having previously been hard to please, seemed decidedly changed at this term, all being entirely satisfied as far as your committee has known. The school appeared at the close to be in excellent discipline and well advanced in all their studies; highly creditable to both teacher and pupils. Length of term 12 weeks. H.

Division 14.

Taught by Miss Flora B. Eastman, of Hillsborough, who, we think, gained the good will and affection of both scholars and parents. F.

DIVISION 15.

Miss Alice M. Jackman, of the Lower Village, teacher. The best of order prevailed in this school; a very pleasant relation existed between teacher and scholars; and the progress made was all that could be desired. F.

DIVISION 17.

Taught by Miss Alice M. Perry, of Hillsborough Center. A teacher of experience and well sustaining her previous reputation. Examination satisfactory. H.

DIVISION 18.

Taught by Louise A. B. Wilkins, of the Center. This school appeared well at each of our visits and passed a very good examination at its close. F.

FRANK J. BICKFORD,
EDGAR HAZEN,
ALDEN P. FARRAR,

Report of the Board of Education Of Special School District,

HILLSBOROUGH BRIDGE.

The work of the past year has been satisfactory, and with the exception of the Winter term, equal to any of the preceding years. Near the close of the Fall term Mr. Scruton resigned the Principalship to engage in other business. The Board engaged Mr. W. R. Whitcomb of Springfield, Vt., for the balance of the year, who unfortunately, in common with a majority of the pupils in the several departments, became a victim of the prevailing epidemic of influenza, at the end of the third week of the Winter term, and school was adjourned for one week. Mr. Scruton kindly substituted for a few days, when Mr. Whitcomb, not regaining his health, tendered his resignation, which was accepted. With but little delay the Board secured the services of Mr. Isaac Copp, who comes to us after eight years' service as Principal of the Austin academy at Strafford, N. H., and is proving himself to be a competent and successful teacher.

Your committee commenced operations under the free textbook law, Jan. 1, 1890, but have done the least possible, under the act, for want of an appropriation with which to procure books and supplies.

M. H. FELT,

For the Board of Education.

REPORT OF THE BOARD OF EDUCATION.

TOWN DISTRICT.

Comparing the present condition of our schools with the past, we believe that advancement has been made and the indications are encouraging for the future. But we must attest our conviction that the standard is too low, that as a people we are too indifferent to the moral and intellectual development of the rising generation. Much is expected of the board of education, yet there remains with the individual a responsibility which is perhaps too little appreciated. The town has been wise and liberal in its appropriations for the support of schools and we trust that this spirit of munificence will continue, which supplemented by the hearty co-operation of parents and citizens, will enable us to make effectual every instrumentality for the advancement of the educational interests of the town.

Standing at the close of the school year and looking backward over the work, we find that the schools for the most part have been quietly and faithfully moving in the line of duty. The interest in school work has increased, the order has been more uniformly good, teachers, parents and scholars have wrought harmoniously together in this great cause, and the re-

sult has been of a more healthy and judicious character. A few exceptions to this general prosperity constitute the chief source of annoyance and regret to the school board.

It is the aim of your school board to elevate the standard of our schools. To do so there are certain essentials, among which are good teachers, good books, and a unity of effort. The parents should co-operate with the board and teachers, that they may raise the standard and make the schools more useful. The only education the majority of our children will receive will be that of the common school, and we cannot make this institution too thorough.

There is this fact that no careful and thinking observer can fail to notice:—That children are the exact exponents of their parents in regard to the feelings of either kindness or unkindness, which they cherish towards those under whose care they are placed. That teacher has but little knowledge of human nature who has not the ability to to read at once from the countenances and acts of her pupils in what estimation she is held by their parents. Children are incompetent to judge of the merits or demerits of those who instruct them, and no parent who acts wisely and prudently will base his judgment in relation to the fitness or unfitness of the instructor for her work, on the mere caprice or evidence of children. Who would be willing to have the merits of his labor judged and reported to the community on the authority and knowledge of school children? Would it not be better for you to go to the school room yourselves, not once but often, and see for yourselves, and then you will be the better prepared to judge correctly whether they are faithful in the interests of your children?

The discretionary power given under the law establishing the town system has been exercised to some extent. In several of the divisions the pupils have been schooled in the adjoining divisions to a greater extent the past year than in any previous year. Owing to this fact it will be seen again that we get more schooling for our money than formerly under the district system.

We should cherish and approve that provision in the law whereby every pupil may have the same advantages in acquir-

ing an education, whereas under the old law, though parents might contribute largely to help pay the public expenses, their children did not have the same privileges as other children on account of living in a less wealthy district.

We invite the careful consideration of every legal voter to the report of the school board where can be seen by figures and proved to every one that all the scholars in the district have had the benefit of thirty weeks of schooling, at a saving of six hundred dollars from what it would have cost under the old district system for the same number of weeks. That speaks a good word for the new school law. That some have not availed themselves of the opportunity to send their children to school thirty weeks instead of twenty, as under the old system, is not the fault of the law or of the school board.

On the 12th day of March the legal voters of the town district will meet and cast thier votes in favor of or in oposition to this town system. This is an important question and we ask every parent and citizen to give it careful and impartial thought. Will we go back to the old, narrow, contracted district system, or will we stand by the present town system, and by combined efforts give the children of the town twice the number of weeks' schooling for the same amount of money?

We would call your attention to the subject of free text books. That it has been very beneficial and greatly promoted the cause of education we sincerely believe. Classification is of prime importance. With free text books each school is of the same general character. Discarded books of one school can be used in some other, thereby keeping all books in use.

Your school board will mention two things that are very desirable for the best progress of our schools:— A school globe. It costs but little, and is invaluable for the beginner in Geography in giving him a visible idea of the shape of the earth, the lay of the land and water, and with the teacher's explanation, its position as a moving ball in the universe. By this a fog is dispelled in a few minutes from the beginner's mind through which it would blindly grope for weeks without this aid:— An unabridged dictinoary for reference. The school is the place for critical reading. Scholars criticise each other and the

teacher, the scholars. A good dictionary is very often necessary to decide cases and for information, besides, the word, being investigated while the interest is up, will be better understood afterwards.

One thought more and we are done. Co-operation is the word. The town district may spend money freely, as it has done, in furnishing school houses and keeping them in repair and may secure the best of teachers, yet if the parents are not united in their efforts for a good school they will not have it.

ALDEN P. FARRAR,
EDGAR HAZEN,
JOHN W. JACKMAN,
School Board.

REPORT OF SCHOOLS.

We make the following detailed report:

Division 2.	First term,	Fair.
	Second and third tems,	Good.

Balance in treasury,				$189 52

REPORT OF THE BOARD OF EDUCATION.

OF THE SPECIAL SCHOOL DISTRICT HILLSBOROUGH BRIDGE.

In submitting the report of our schools we are again and for the third time compelled to chronicle the sad loss by death of another teacher. Miss Marion Moore had for five years taught the intermediate department and been unanimously re-elected for another, although the School Board with other friends were

aware that her health was failing, but with true love and devotion for her work she desired to retain her position, hoping that the summer's rest would restore her health and vigor sufficiently to resume her work in the fall—a hope earnestly shared by the School Board and her many other friends, but all were doomed to disappointment, for though for a time she seemed greatly benefited by the change of scenery and mountain air, whither she had gone during the vacation, shortly before the commencement of the fall term she was obliged to request that a substitute be engaged for at least the fall term. Her health continuing to fail, on the 5th of Nov. last, she unconditionally resigned her position. The unfavorable progress of the disease still unchecked she failed rapidly and passed quietly away on the 17th of January, 1891, expressing her joy and gladness that her last work had been in the school room for the benefit of those she loved so well. That Miss Moore was a faithful teacher, devoting heart and mind to her work, the progress, love and respect of her pupils bear testimony in the strongest manner. A legacy of $1,000 she bequeathed to the district for the benefit of the high school showed her unselfish interest and desire to advance the cause of education. Her example, so worthy of imitation, will, we trust, be followed by others more able even if less interested.

The progress in the several departments has in general been quite satisfactory and at present the efforts of the teachers to do good work is being met with commendible zeal by the pupils.

Mr. Isaac Copp is Principal, through whose efforts, seconded by the high school pupils, a good amount of chemical apparatus has been obtained without cost to the district. Miss Ada Buxton is teaching her sixth year in the Grammar, Miss Gertrude Manahan her first in the Intermediate and Miss Cora Peaslee her third in the Primary department. Further information will be found in the statistical table and Treasurer's report.

M. H. FELT,

For the Board of Education.

REPORT OF THE TREASURER.

The Treasurer of the Board of Education respectfully submits the following report for the year ending Feb. 25, 1891:

1890.				
Mar. 1.	Balance is hands of Treasurer,		$477 59

TOWN WARRANT.

To the inhabitants of the Town of Hillsborough, qualified to vote in town affairs :

You are hereby notified to meet at Odd Fellows hall, in said town, on the second Tuesday of March next, at nine of the clock in the forenoon, to act upon the following subjects:

1. To choose a moderator for the ensuing year.
2. To choose three Selectmen, Town Treasurer and Clerk.
3. To hear the reports of the Town Treasurer and Board of Selectmen to the Town Auditors; the reports of the Auditors, Agents, Committees, or other officers heretofore chosen or appointed, and to pass any vote relating thereto.
4. To choose a Collector of Taxes and all other necessary town officers and agents for the year ensuing.
5. To raise such sums of money as may be necessary for paying the town debts and defraying the interest thereon, and for other necessary charges arising in said town; for laying out and repairing highways and sidewalks, and building and repairing bridges; for the maintenance of the poor; to establish and maintain public libraries, cemeteries, and parks or commons, and to improve the same.
6. To see if the town will vote to raise any money for school purposes other than that required by law or pass any vote relating thereto.
7. To see if the town will appropriate a sum of money not exceeding seventy five dollars to Senator Grimes Post, G. A. R., to be used on Memorial Day.
8. To see what action the town will take for a re-apprisal of the real estate as required by law and pass any vote relating thereto.
9. To see if the town will vote to have established by survey the highway lines wherever needed in said town or pass any vote relating thereto.
10. To see if the town will vote to adopt Chapter 78 of the Public Statutes in regard to sidewalks and sewers.
11. To see if the town will vote to establish a police court or pass any vote relating thereto.

12. To see if the town will vote to instruct the Selectmen to sell the town farm.

13. To see if the town will vote to discontinue the liquor agency.

14. To choose one trustee for the Fuller public library for the term of two years.

15. To see if the town will vote to discontinue the following highways:

1. Leading from the Beard road to the Howard place.
2. Leading from the Bog road to the Kimball place.
3. Leading from the County road to the Robbins place.
4. Leading from the Beard road to Bible Hill road.

16. To see what action the town will take in regard to lighting the streets by electricity or pass any vote relating thereto.

17. To see if the town will vote to continue the present by-laws in force prohibiting cattle and horses from running at large in the highways.

18. To transact all other business which may come before said meeting.

Given under our hands and seal this 20th day of February, A. D. 1892.

S. H. BAKER,
JOHN BOOTH,
W. E. GAY,
Selectmen of Hillsborough.

REPORT OF THE SELECTMEN.

The Selectmen present herewith their annual report for the year ending March 1, 1892. We desire to call your attention and make a few suggestions that you may have in mind as you make your criticisms. "A duty in which everybody is supposed to do their share." In coming into office March, 1891, we found the town in a prosperous condition with money in the treasury and a town debt of only $3,264 00. There were no suits or claims pending against the town and we have had no claims presented the past year for damages upon the highways or from any other cause which is very gratifying to us and no doubt is to the town. We have paid $1,488.48 contracted in 1889 and 90, the larger part (breaking road bills) of which under the old system were obliged to be held over until the following year. We have reduced the outstanding notes against the town $2,273.00 and paid $2,101.59 of the town debt the present year, and are, we think, justified in saying that we leave the town to our succesors in office in as good a condition as we found it.

We wish to call your attention briefly to our

HIGHWAYS.

By a vote of the town at its last annual meeting "The Selectmen were instructed to appoint one or more road agents to superintend the repairs of the streets, roads and bridges in said town, and to collect the amount of the highway tax in money" In conformity to that vote, we take pleasure in call- your attention to the road agent's report and ask you to compare the amount of monies expended and work done in former years under the old system, and the amount expended and work done the past year under the new system. As to the

economy of returning to the old district system of repairing roads we can only say that the bills will be large and no fair show for the money expended. No Board of Selectmen can overcome this and as proof we can only refer to the amount of monies expended in the past in the several disiricts. Many surveyors ignore any instructions given them by the selectmen, no notice being given of extra money expended until their bill is presented for payment. If good and efficient work was given in return the matter would not appear so ridiculous. We earnestly urge the importance of giving the present system a thorough trial (as the first year is partially an experiment) and if we do not receive an equivalent for the money expended return to the old system if no other way is deemed better. Only give us good roads at the lowest possible cost, as it is one of the most important branches of the town service, as well as the most expensive and will continue to be so if we keep pace with the times and meet the requirement and the desire of the public. We should not forget that the town and community are largely judged by their highways.

WINTER SYSTEM.

The winter system of breaking out the roads and streets is the same as in former years with the exception of the Bridge, Lower and Upper villages, only that all bills are paid monthly. We investigated in regard to using snow rollers and all our answers were unanimous that they were a great saving to a town and make a much better road than the old way of sled and plow. We purchased two rollers, one for the Bridge village and one to be used between the villages, and so far we think they have given satisfaction.

SIDEWALKS.

The concrete on several of the streets had been sadly neglected previous years so that a large amount was required to repair them even into passable condition. In many places the sidewalks and street crossings are much lower than the roads. Some of the worse places were repaired. 1,000 square yards of practically new concrete was laid with edge stone also 700 feet of sidewalk set with edge stone (abuttors paying one half

of expense of edgestone) graded and filled ready for concrete at some future time. 750 feet of plank sidewalk was laid and steps built on Briggs street from Mill to High street which was badly needed for the accomodation of the public. The concrete on many streets, especially Main street is worn out (being the first laid in town) and on others lower than the street and will soon have to be rebuilt. We strongly recommend that no new concrete be laid or sidewalks built until the streets are re-surveyed and sidewalks put where they belong with suitable edge stone and properly graded. If this had been done in former years we would have good even walks with wide, straight and inviting streets.

SCHOOL SUPPLIES.

The selectmen have nothing to do with the school supplies except to pay such bills as the Board of Education may present. We think the better way would be to have the bills paid by the Board of Education out of the extra school money voted for school purporses or by special appropriation and appear in their report where it rightly belongs

BOARD OF HEALTH

Should receive the aid and support of every person in the town as the health of the community is most essential and the suggestions of the Board in their report receives our hearty approval.

There are other matters we might call to your attention but the foregoing seem to us the most important.

The articles in the town warrant to be voted upon, Tuesday, March 8th, should be carefully considered in the early part of the day instead of waiting until late in the afternoon or leaving the matter with the next Board of Selectmen.

We have endeavored to conscientiously discharge the duties devolving upon us for the best interest of the town irrespective of persons or parties.

STILLMAN H. BAKER,
JOHN BOOTH,
WILLIAM E. GAY.
Board of Selectmen.

ROAD AGENT'S REPORT.

To the Selectmen:—I herewith present my report as Road Agent. In commencing my work May 1st I found the roads in very good condition with a few exceptions. Removing the stones from the highways and streets had been sadly neglected previous years, and my first work was to remove those most dangerous in the traveled part of the highways, although there are many more that should be removed another year; also the stones in the ditches and sides of the road should be removed so the highways could be made wider in many places. There are a number of roads that should be discontinued as they are unused and in their present condition are dangerous and unsafe. There have been 73 culverts taken up and built over; 16 bridges have been repaired, and many more will require new planking another season. In the Bridge Village it is impossible to make good streets until some system of sewage or drains is adopted to take away the surface water. I would urgently recommend that the principal streets in the Bridge Village be re-surveyed so *some one* will be able to know whether they are repairing the *public highways* or trespassing on *private property.* There has been expended the past season upon the highways $2,697.59 which includes the repairs and material purchased for bridges and culverts, removing stones and cutting bushes, which is $959.02 less than was expended last year and $1202.74 less than the average for the past five years. As to the amount of work done this year compared with former years is for the town and travelling public to judge.

ALBERTO H. HEATH.

HIGHWAY DEPARTMENT.

HORSES, OXEN, ROAD MACHINE AND TOOLS

GEORGE E. WYMAN.
Auditors.

TOWN FARM.

In looking over the following report of the town farm you will find a balance against the town. In taking the apprisal of the personal property we did not make any fictitious values but estimated it at what, in our opinion it was worth and would sell for at the time of taking the invoice, which makes a bad showing for the farm. It is impossible to secure a competent person to carry on the farm at the salary paid and we recommend that in the future the salary of the manager be advanced and a sufficient bond be given to the town for the faithful discharge of his duties. No doubt it would be much cheaper for the town to sell the farm as we have had on an average not one town pauper at the farm for the past year, but it may not be policy or cheaper in the end to do so. It seems to be a question in relato which the minds of the voters of the town are about evenly divided.

STILLMAN H. BAKER,
JOHN BOOTH,
WILLIAM E. GAY,
Selectmen.

OLD TOWN HOUSE.

COMMITTEE'S REPORT

By a vote of the town, March 1891 "The selectmen were instructed to see what rights the town had in the old town house at the Center of the town and report thereon". In conformity to that vote we have made investigations and inquiries and in our opinion the town has a right to remove, sell or repair the old town house (so called) at Hillsborough Center, and we recommend that it should be removed or repaired as in its present state it is unsightly and a disgrace to the town and also dangerous to adjoining property.

REPORT OF THE BOARD OF HEALTH.

To the Selectmen and Citizens of Hillsborough:

The Board of Health met April 18, 1891, and organized by choosing Brooks K. Webber chairman and treasurer and Fred S. Piper, secretary.

Following the organization, a somewhat thorough inspection of the town was made, in view of improving the sanitary condition.

The developments of this inspection, together with more recent observation and the work naturally devolving upon a local board, furnishes the basis of this report.

The board had no sooner manifested their purpose and intentions of advancing village sanitation than the public showed their interest in the matter and in most instances gave ready response and support. For this support the board is truly grateful. In a few instances, however, a little authoritative persuasion was found necessary.

Early in the year, the need of sanitary regulations became apparent and the "Sanitary Regulations of Hillsborough, N. H.," as published in the local newspaper and posted about town, were prepared and adopted according to a provision of the state law.

CORRESPONDENCE.

The correspondence of the board has been of a nature to need no comment, save one interesting item from the pen of the late and lamented Attorney General Barnard.

The question was asked him, "Who is responsible for the care of privies, cesspools, etc., the tenant or owner of the

property?" His reply was given, either tenant or owner or both.

WATER SUPPLY.

In the house to house inspection, which embraced the larger part of the Bridge Village, particular attention was given to the water supply, privies, sink drains and the condition of the house cellars. Water from more than twenty wells, supplying upwards of thirty families, was tested by the application of nitrate of silver and nitric acid and in only four instances could the water be considered fit for dietary purposes while in several it was badly poluted. One well examined and since abandoned supplied for several years, three or four families and yet was within twelve feet of a privy vault and almost as near several sink drains.

Three samples thus tested and found of dangerous appearance, were submitted to Prof. Angell of Derry for careful examination and in every instance the results of the nitrate of silver tests were verified.

Following the recommendations of the board, the use of at least fifteen wells, supplying twenty-five families has been abandoned and Loon Pond water substituted.

In a village as thickly populated as this, well water is always of very uncertain purity. To test water by means of nitrate of silver and nitric acid is very inexpensive and the work of a moment's time and yet the results are practically trusty and conclusive.

LOON POND WATER.

Loon Pond water was analyzed June 3, 1891, by Prof. Angell and found of unusual purity for pond water, and it is much regretted that the drainage from the Lake View House should be so constructed as to sooner or later cause polution if allowed to exist as it is at present.

The Board of Health notified the Water Co. early in September last of the dangers existing and requested that it be remedied before actual contamination occurred, but as yet apparently no action has been taken. If this source of danger is allowed to continue until the pond water is appreciably pol-

luted it would require an equally long or longer time for the water and adjoining soil to become wholesome.

DRAINAGE.

As regards the drainage of Bridge Village, little can be said for there is too little of it; while much might be said about the needs of a sewerage system that would embrace the entire village, had it not already been repeated so many times. Without such a system the work of the board is greatly hindered and in numerous instances rendered nearly useless. It is easy to point out defective drains, cesspool nuisances, and make complaints, but extremely difficult to provide a remedy. Until the town, or precinct, is willing to provide this means of advancing the sanitation of our midst, the demands upon a board of health must necessarily be modest.

DRAIN NEAR HENNIKER STREET.

A long surface drain, or ditch, extending from a point near the residence of Mr. Flanders on Holman street, through the meadow land in the rear of Mr. L. J. Russell's across Henniker street and the railroad and thence across the meadow to the adjacent woodland, was provided at considerable expense. The elevation of this region above the river is so slight that great care was necessary to secure a constant grade to the drain.

The land thus drained was very offensive, and a source of danger from stagnant water, a part of which is furnished by drainage from the upper part of Henniker street.

A similar provision is needed in the vicinity of Central and Myrtle streets crossing, to extend as directly as possible to the corner of Church and Main streets.

VENTILATION.

Some better means of ventilating our churches, public halls, school rooms, etc., than the opening of windows and thus exposing persons to a direct draught should be sought. Over-heated and poorly ventilated rooms are frequently the cause of many ill feelings, if not prolonged sickness.

OUR STREETS.

Our streets are too frequently the dumping ground for refuse matter, coal ashes, etc., and some measures should be taken toward greater cleanliness. It might seem advisable to have the town team make regular weekly or bi-weekly tours, during warm weather, at least, of our village streets for the purpose of gathering and the proper disposal of such refuse matter, ashes, etc., as may need attention, and require all householders to give reasonable assistance.

PRIVIES.

In numerous instances, about town, privies give evidence of not having been decently cared for or cleaned for several years. Hog-pens and hen-houses are further sources of annoyance and danger, and for the control of all such nuisances, sanitary regulations have been adopted. Following a thorough cleaning of a privy vault, dry earth or other suitable disinfectants should be used daily throughout the summer months.

DISEASES REQUIRED TO BE REPORTED.

Of the diseases required to be reported to the Board of Health, there have occurred during the year, diphtheria, 2 cases; typhoid fever, 4 cases; scarlet fever, 1 case; none of which proved fatal or to be communicated to others.

PLACARDS.

Some differences of opinion arose concerning the placarding of houses infected with typhoid fever, but it is the belief of this board, strengthened by the explicit direction of the State Board of Health, that all houses thus infected should be placarded and kept placarded until convalesence is fully established.

LOCAL BOARDS NOW REQUIRED TO REPORT MONTHLY TO STATE BOARD.

In accord with recently adopted rules of the State Board of Health, local boards are required to render a monthly report to the State Board. This report includes all cases of infectious diseases reported by physicians to the local board; all

cases known to exist and not so reported to the local board; fatatality of these diseases; the action of the local board in relation to the same and names of physicians reporting them.

AMOUNT OF TIME RENDERED BY THIS BOARD IN LABOR.

The Board of Health finds by careful account that they have severally rendered, on an average, about eight day's work during the year, not including the secretary's time expended in correspondence and keeping of records.

Respectfully submitted,

BROOKS K. WEBBER,
JOHN GOODELL,
FRED S. PIPER,
CHARLES A. JONES,
Board of Health of Hillsborough.

By FRED S. PIPER, Secretary.

Hillsborough, N. H., February 10, 1892.

SCHOOL REPORTS.

WARRANT TOWN DISTRICT.

To the inhabitants of the town school district in the town of Hillsborough, qualified to vote in district affairs:

You are hereby notified to meet at the school house at Lower Village, in said district on the twelvth day of March, 1892, at one o'clock in the afternoon, to act opon the following subjects:

1st. To choose a moderator for the coming year.

2d. To choose a clerk for the ensuing year.

3d. To choose a member of the school board for the ensuing three years.

4th. To see if the district will vote to raise money for repairing of school houses or for other school purposes and if so, how much.

5th. To hear reports of agents, auditors, committees or officers heretofore chosen and pass any vote relating thereto.

6th. To choose agents, auditors and committees in relation to any subjects embraced in this warrant.

Given under our hands at said Hillsborough this 20th day of February, 1892.

FRANK J. BICKFORD,
JOHN W. JACKMAN,
ALDEN P. FARRAR,
School Board.

TOWN DISTRICT.

In submitting our report for the year ending March 1st, 1892, we are confident that our schools have maintained the usual standard of improvement, and we think a little gain has been made over the previous year. "To err is human" and we admit that in a few instances we have erred in our selection of teachers, but it has been our earnest aim to hire the best talent that we could obtain, being of the opinion that one week of good instruction is of more value to the scholar than three weeks of poor. And the majority of the teachers employed the past year have given the desired satisfaction.

A word should be said in regard to our school houses. There are several that are very much in need of repairs. Many are in want of new shingles and such expenditure as amounts to real economy. There are many improvements, both outside and in the school room, that would be of great benefit to the children If it is essential to make home pleasant, is it not equally so to make our school rooms attractive?

One disadvantage in most schools is the fact that the teachers are changed too often. In some small schools the same teacher is seldom hired more than two terms in succession. A teacher must be more or less acquainted with her pupils before she can do for them all that a teacher ought to do. If at the beginning of every term teacher and pupils are strangers to each other, much of the school work will be merely experiments.

During the past year we have introduced into all of our schools Colburn's Arithmetic, and it has been used with great satisfaction. In many respects—especially in teaching fractions—we believe it is superior to any other text-book on Arith-

metic in existence. We cannot say whether it is more valuable for bright boys or for dull ones; both have greatly improved, even in the short time they have had the book, in their power of giving real attention to the subjects presented to their minds. The correct use of Warren Colburn's books always developed the faculty of ready and sharp logic that is required in the application of arithmetical processes to the business of common life. A mental habit of readiness and accuracy in the processes of exact reasoning is of the highest value. We need this kind of mental drill, and greatly lament its absence in the daily work of the common schools of to-day.

Our muscles cannot become strong by cramming our heads with rules about the care of health. Every one knows how carefully and patiently college students train their bodies for months previous to a boat race. Now, what we want to see going on in our public schools is a careful and patient training of the mind, preparatory to starting the pupil on the race for bread and butter. Give him whatever else there is room for, but first, last and always, compel him by hard work to gain that strength of mind which wins in the race.

FRANK J. BICKFORD,
JOHN W. JACKMAN,
ALDEN P. FARRAR.
Town School Board.

DETAILED REPORT OF SCHOOLS.

DIVISION 2.

First term. A good teacher.
Second and third terms. A thorough teacher.

DIVISION 5.

First term. A successful term.

DIVISION 6.

First and second terms. Fair work was accomplished.
Third term. A success.

DIVISION 8.

Three terms. With good results.

DIVISION 9.

First term. Fair success.
Second term. Gave good satisfaction.
Third term. A first class instructress.

DIVISION 10.

First term. A thorough and practical teacher.
Second and third terms. Good satisfaction given.

DIVISION 12.

Three terms with good satisfaction.

DIVISION 13.

First term. Fine order and improvement.
Second term. Good success.

DIVISION 15.

First term. Perfect satisfaction.
Second term. Good results.

DIVISION 17.

First term. A teacher of marked ability.
Second term. Not up to the standard.
Third term. A thorough teacher.

DIVISION 18.

First term. Fair.
Second term. All concerned satisfied.

ROLL OF PERFECT ATTENDANCE.

DIVISION 2.

One term. Nellie M. Burnham, Carrie L. Burnham.

DIVISION 5.

One term. Stella E. Shedd, Elmer I. Shedd, Annie LaBrie.

DIVISION 6.

One term Irvin H. Craige, Cora B. Ward, Etta F. Nichols.
One term. Isma M. Carter, Scott W. Gibson, Arthur Dowlin.
Two terms. Jennie M. Ward, Bertie J. Craige.

DIVISION 8.

One term. Rogelow N. Farley, Josie M. Lewis.
For the year. Dora M. Lewis.

DIVISION 9.

One term. Lizzie L. Harvey, Frankie A. Harvey, Robert Bonner.
One term. Frank C. Brockway.
Two terms. Edith M. Ray.

DIVISION 10.

One term. Lena Waldron, Jonn French.
Two terms. Alix Rodgers, Senica Rodgers, Flora Gardner.
For the year. Edith Crooker, Fred McClintock.

DIVISION 11.

One term. Jessie W. Aldrich, Emily F. Gammel, John D. Bourne.
One term. Arthur B. Gardner.
Two terms. Grace A. Martin, Fred J. Martin.
For the year. Olive H. Putney.

DIVISION 13.

One term. Emily F. Gammel, Mary G. Morgan.
One term. Martha V. Morgan, Annie B. Morgan.

DIVISION 15.

One term Aimee L. Farrar, Ralph W. Farrar.
One term. Bertie E. Farrar.

DIVISION 17.

One term. Jennie F. Law, Eolla A. Powers, Arthur E. Powers.
For the year. Marion R. Cook, Olive S. Cook, Emily E. Goodale.

DIVISION 18.

One term. Arthur N. Chambers, George S. Powers.
One term. Arlcw A. Powers, Maurice Tuttle.
Two Terms. Florence E. Kimball, Lizzie May Kimball.

REPORT OF BOARD OF EDUCATION

OF THE SPECIAL SCHOOL DISTRICT HILLSBOROUGH BRIDGE.

During the summer months the Board of Education with much assistance from Prof. Copp and the other teachers prepared a new course of study with a system of rules and regulations not only for the government of pupils and teachers, but for the board of education as well, and which early in the fall term was put in what has thus far proved successful operation.

It was the intention of the board to place a copy of the course of study in the hands of every family in the district, hoping it would be preserved by them for frequent reference. The work in the new course has in general been satisfactory, but under any prescribed course of study success depends in a great measure upon the efforts of individual teachers. The new course requires constant and zealous efforts from both pupils and teachers in each department, as a lack of preparation in one grade may seriously affect its standing in the next higher, and it is only by continued application and conformity to the plan as marked out in the course that the desired result can be attained. The best evidence of successful methods of instruction is obtained by an observance of the results attained by the daily work in each department, and there learn how much valuable time may be consumed in unnecessary repetition and useless forms and ceremonies.

Last year the sum of $300 was appropriated by the district for draining the school-house basement. A portion of this sum has been expended in constructing a thorough system of drainage which is conducted from the building through a tile sewer

extending down School street to Post Office square and there connecting with a town sewer. Thus far the system has worked perfectly. A much improved system of ventilation has been provided for each room, the unused brick flue having been utilized for this purpose. A considerable amount of the $300 appropriation is still in the hands of the board, see treasurer's report, which would have been used to concrete the basement and repair the outside walks, but for their inability to engage parties to do the work at reasonable prices.

The operation of the free text-book and supply law has enabled the board to equip the school fairly well with much needed illustrative apparatus and a few books of reference so that after the addition of philosophical apparatus now much needed, a much smaller outlay per year will suffice for all our wants in this direction.

Further information will be found in the report of the treasurer and in the statistical table which however is not complete, as at the time of writing, the winter or last term of the financial and statistical year is still in session, and for the same reason the roll of perfect attendance can not now be published.

MARCELLUS H. FELT,
WALTER S. SCRUTON,
BROOKS K. WEBBER,
Board of Education.

ROLL OF PERFECT ATTENDANCE.

Including the names of all pupils who have been present every half day of a term without being tardy.

Primary Department.

First term.—Ruben Boutwell, Alice Sargent, Arthur Morgner, May Burnham, Ernest Nichols, Allen Goodale, Paul Willgrothe, Henry Willgrothe, Abel Johnson, Bert Chase, Arthur McNally, Lena Rawley, Mamie Johnson, Eva Scribner, Hattie Scribner, Harry Chase. Second term.—Josephine Appleton, Blanche Cochrane, Cassie Richardson, Ruben Boutwell, Harry C. Chase, Allen R. Goodale, Charles C. Ingalls, Walter Mordough. Fred Richardson. *Third term.

Intermediate

First term.—Harry A. Pillsbury, Herbert D. Woods, Harry E. Fitch, Charlie F. McNally, Hiram G. McAlpine, Eugene S. Powers, Willie F Sullivan, Maude F. Colby, Lora A. Brown, Mabel A. Gray, Annie G. Pero, Maude E. Plummer, Jennie L. Tuttle Second term.—Harold A. Douglass, John E. Dowd, Jennie L. Tuttle, Mary A. Johnson. *Third term.

Grammar.

First term.—Hubert Goodale, Harry Gove, Mary Barnes, Stella Merrill, Mary Woods. Second term.—Eugene Goodrich, Ray Goodale, Maud Towne. *Third Term.

High School.

First term—Ina G. Rrown, Mary H. Newman, Blanche E. Whitaker, Elsie C. Woodhead. Second term.—Hubert Goodale, Cecil P. Grimes, Bert Loveren, Harry Sargent. *Third term.

---

*Third Term not yet completed.

REPORT OF TREASURER OF SCHOOL BOARD.

SPECIAL DISTRICT.

The Treasurer of the Board of Education respectfully submits the following report for the year ending Feb. 25, 1892

Balance in hands of treasurer,	$ 839 13	
Received in tuitions,	26 00	
" "	32 75	
" of W. H. Story,	270 54	
" " "	300 00	
" in tuitions,	18 00	
" W. H. Story,	1,771 16	
Total amount received,		$ 3,257 58

Paid out the following as per vouchers.

Isaac Copp, principal,	$666 67
Ada H. Buxton, assistant,	270 00
F. Gertrude Manahan, intermediate dept,	270 00
Cora L. Peaslee primary,	252 00

TOWN WARRANT.

STATE OF NEW HAMPSHIRE.

To the Inhabitants of the Town of Hillsborough in the County of Hillsborough in said State, qualified to vote in Town affairs:

You are hereby notified to meet at Odd Fellows' Hall in said town on Tuesday, the Fourteenth day of March, next, at nine of the clock in the forenoon, to act upon the following subjects:

1. To choose three Selectmen, Town Treasurer and Town Clerk.
2. To hear the reports of the Town Treasurer and Board of Selectmen to the Town Auditors; the reports of the Auditors, Agents, Committees or other officers heretofore chosen or appointed, and pass any vote relating thereto.
3. To choose a Collector of Taxes, and other necessary town officers and agents for the year ensuing.
4. To raise such sums of money as may be necessary for paying town debts and defraying the interest thereon, and for other necessary charges arising in said town, for laying out and repairing highways, sidewalks, building and repairing bridges, for the maintenance of the poor, to establish and maintain public libraries, cemeteries, parks or commons, and to improve the same.
5. To see if the town will vote to raise any money for school purposes other than that required by law, or pass any vote relating thereto.
6. To see if the town will appropriate a sum of money not exceeding seventy-five dollars to Senator Grimes Post, G. A. R., to be used on Memorial Day.
7. To see if the town will vote to adopt Chapter 79 of the Public Statutes in regard to sidewalks and sewers.
8. To see if the town will vote to discontinue the Liquor Agency.
9. To choose one trustee for the Fuller Public Library.
10. To see if the town will vote to discontinue the following highways:
    a. Leading from David Kimball's corner to the Ellenwood place.
    b. Leading from Walter Woods' place to the Washington line.
    c. Leading from McColley place to Windsor line.
    d. Leading off Bridge street, so-called, being that part of Summer street, so-called, not included in the lines of said highway as now laid out and built.
11. To see what action the town will take in regard to lighting the streets with electricity, or pass any vote relating thereto.

12. To see if the town will vote to build a town hall, appropriate a sum of money for that purpose, or pass any vote relating thereto.

13. To see if the town will vote to pay Ephraim C. Hoyt a sum not to exceed thirty dollars, for damage claimed by him, to his horse, on the highway.

14. To see if the town will vote to pay William B. Gould a sum not to exceed sixty dollars, for damage claimed by him to his team on Newman street.

15. To see if the town will vote to sell the town farm, replace the buildings destroyed by fire, or pass any vote relating thereto.

16. To see if the town will vote to instruct the Selectmen to strictly enforce the Prohibition laws of the State in this town.

17. To see if the town will vote to adopt the use of the seal, or pass any vote relating thereto.

18. To see if the town will vote to continue the present by-laws in force prohibiting cattle and horses from running at large in the highways.

19. To transact all other business which may come before the meeting.

Given under our hands and seal, this twenty-fifth day of February, in the year of our Lord eighteen hundred and ninety-three.

STILLMAN H. BAKER,
JOHN BOOTH,
WILLIAM E. GAY,
Selectmen of Hillsborough.

REPORT OF THE SELECTMEN.

The Selectmen herewith present their annual report for the year ending March 1, 1893. The town treasurer has received from different sources $27,962.22, and paid out by orders, the amount of $27,306.87; leaving in the town treasury $655.35. The present town debt is $917.22, a reduction of $225.19 as per report of last year. The town has received by the will of the late Maria Travis, one hundred dollars, the interest to be appropriated in keeping in repair for all time the burial lot of her late father and mother, Mr. and Mrs. Jonas Baldwin.

HIGHWAYS.

The town appropriated by vote at its last annual meeting the sum of $3,062.68 to keep in repair its highways and bridges, and has expended $3,058.52. The past summer we had several showers and hard rains that washed the roads badly, but we think the main roads and streets in the village are in better condition than ever before. Special attention should be given the coming year to repairing the cross roads and bridges, as they are not in as good repair as they should be, and we would suggest a special appropriation to be used especially for this purpose. The amount expended upon our highways is less than any other town in the state, according to the valuation and mileage, and we think our roads will compare favorably with any in the county. It is impossible to adjust all matters so that each and every tax payer and every section of the town shall receive *exact* justice. During the past season we have placed two large iron drinking fountains for horses, one at the corner of Mill and Bridge streets, and one between the Bridge and Lower Village.

NEW STREETS.

We have been called upon to build several new streets the past year at a cost of $2,234.96, including the land damages. Park street is not completed, and will require about five hundred dollars to finish it. An extension of Church street has been laid out by the Selectmen, and it will be necessary to build the same as early as possible; this will not be an expensive street to build. The town at its last annual meeting instructed the Selectmen to survey and establish the highway lines wherever needed. We have established the lines and have had plans made of Depot, Jackson, Cross, Henniker, River and Bridge streets, from the Public Square to the river, Main street and School street to Pleasant street. On the two last named streets parties have appealed from our decision and it will require the services of the County Commissioners to establish them. In laying out the Public Square we purchased the land in front of J. H T Newell's block at a cost of $300 00, and think it money well invested. We think it is very important to know where the street lines are, and we trust the incoming board will establish the lines on the few remaining streets that time did not allow us to do.

SIDEWALKS.

There were appropriated $1,000.00 for sidewalks, and we have expended $809.44. We have laid seven hundred feet in length and five feet in width, of concrete walk and over one-half mile of plank sidewalk the past season. We also made a contract with the Berlin Bridge Company to place an iron sidewalk on the outside of the stone bridge, to be finished on or before November 1, 1892, at a cost of about $1,000.00, completed. Owing to delays on their part, the iron for the bridge did not arrive until it was too late to put it in position last fall, and it will be built as soon as possible the present Spring. This will greatly add to the safety and accommodation of the public.

TOWN FARM.

On Saturday evening, January 21st, the house at the town farm was destroyed by fire, upon which there was an insurance

of $900.00. The inmates were all safely removed; clothes, furniture and provisions were destroyed to the value of over $500. with no insurance. The town will, no doubt, at its annual meeting either vote to sell the present farm, or rebuild. If the town sees fit to keep a town farm would it not be well to take into consideration the expense of carrying on so large a farm? And would it not be to the best interest of the town in the future to sell the present farm and purchase a smaller one better adapted to the wants of the town?

TOWN RECORDS.

We wish to call your attention to the condition of the town records. They are so situated that in case of fire they would be totally destroyed. They are packed away in old chests and boxes, and if the town wishes to retain these old books and papers steps must be taken to prevent their destruction; as they are now situated they are of very little value to the town for reference, although Chapter 43, Section 43 of the Public Statutes gives the Selectmen authority to file and arrange in an orderly manner all documents of the town and secure fire-proof safes for the same. The present Selectmen's room is too small and not properly arranged for preserving the records. The town clerk and treasurer have no place suitable to keep their books or papers. The present room where the Public Library is located is too small and larger accommodations will have to be furnished soon, and some convenient place will have to be secured for a Police Court room. We trust the town will take some action in these matters. We wish to thank all other town officers and agents for their cordial co-operation with us in the transaction of all town business during the past year.

Respectfully submitted,

STILLMAN H. BAKER,
JOHN BOOTH,
WILLIAM E. GAY,
Selectmen of Hillsborough,

Hillsborough, March 1, 1893.

Not Paying Hotel Bill,	1
Fornication,	2
Disorderly House,	1
	61

Disposed of as follows:

Paid fines and costs,	45
Fines and costs suspended,	6
Discharged,	5
Sent to Jail.	2
Bound over to Superior Court,	3
	61
Intoxicated persons assisted home,	13
Lodgers,	31

WM. M. CALDWELL, Chief of Police.

We, the undersigned, auditors of the town of Hillsborough, have examined the accounts of the Selectmen, the report of the Treasurer, and Trustees ot the Fuller Public Library, and find the same correct, with proper vouchers.

CHARLES W. CONN,
CHARLES F. GOVE,
MARCELLUS H. FELT,
Auditors.

REPORT OF THE BOARD OF HEALTH.

To the Selectmen of Hillsborough:

The Board of Health met June 17, 1892, and organized by choosing Marcellus H. Felt chairman and Frank F. Goodwin secretary.

A form of complaint was adopted, to be signed by the complainant, and upon these the board has acted, and in all instances where complaint was made satisfaction to all parties concerned has been obtained.

At an adjourned meeting of the Hillsborough Bridge Fire Precinct, Sept. 7, 1892, an appropriation was made, upon which a system of sewerage was started and extended from the Contoocook river to the outlet of D. Whiting & Son's sewer. This furnished relief for one of the worst dangers that came to our notice. But we believe the system should be extended through the entire village, and we earnestly hope that the work so successfully started will be pushed to completion the coming season.

Of the diseases required to be reported to the Board of Health there occurred scarlet fever one, diphtheria one, typhoid fever one, none of which proved fatal, or to be communicated to others.

Respectfully submitted,

MARCELLUS H. FELT,
FRANK F. GOODWIN,
DANA R. BRUCE,

Board of Health of Hillsborough.

By FRANK F. GOODWIN, Secretary.

Hillsborough, N. H., Feb. 21, 1893.

SCHOOL REPORTS.

REPORT OF THE BOARD OF EDUCATION

—OF THE—

SPECIAL SCHOOL DISTRICT, HILLSBOROUGH BRIDGE.

Very little information concerning our Schools, not found in the Statistical table or Treasurer's report need or can be given. We believe that in all the departments the standard of improvement heretofore established has been maintained and hope some improvement over previous years has been made, but of this people interested can better judge and be convinced by frequent or at least occasional visits to the school-room than by reading the report of the Board of Education.

A severe epidemic of measles prevailing during the winter ter term, it was deemed advisable to suspend the schools for two weeks, but the average attendance has been, all through the term, considerably lessened on this account.

There has been for several years a steady increase of pupils, until, in the last year it became an imperative necessity to establish another department, the Second Primary, with between forty and fifty scholars. Accommodations(?) were provided, at very little expense, for this department by taking the old furniture once condemned as unfit for use and placing it in the "cock loft" of the school-house, which gave the necessary room, but altogether unfit and unsafe for the little pupils.

Ten years ago when the present school building was planned and erected, much comment was made upon the extravagant size and corresponding cost, but time has demonstrated the shortsightedness of these criticisms, as beyond all question an addition to the present house or a new one must in the near future be provided. A plan contemplated when the present building was erected will, when the precinct system of sewerage has been extended to Post office square, be quite feasible, for by removing the outbuildings and providing similar accommodations in the basement connected with the sewer already in position, the rear projection can be extended and additional rooms suitable for school or recitation purposes be provided at no unreasonable outlay.

The $200 appropriated last year to purchase philosophical apparatus has been expended for that purpose, and with the income of the Marion A. Moore fund a set of People's Encyclopedias has been purchased for the use of the high school, and here we are pleased to announce that after some discussion and considerable delay, the board of education has ordered a picture of Miss Moore to be made and placed, in memoriam of her devotion and generosity, in the school building, at an early day.

MARCELLUS H. FELT,
BROOKS K. WEBBER,
WALTER S. SCRUTON,
Board of Education.

TREASURER'S REPORT.

REPORT OF THE BOARD OF EDUCATION.

The schools of the town are in good condition. The teachers have labored zealously for the good of the schools. They have endeavored to teach the pupils in a thorough manner, and the school board have sustained them, and we contend that any other method of teaching is a damage to the scholars. It is better for the scholars to learn a little and learn it thoroughly than to make rapid progress and know little of what they have studied.

With very few exceptions a pleasant relationship has existed between pupils and teachers, and where any unpleasantness has occurred, we believe the cause has peen with the parents rather than the pupils. As a rule, the disturbances in our conntry schools are not caused by the pupils or teachers, but by those outside of the school. We do not claim, however, that teachers are perfect in judgment. Speaking from experience, we know they are not, and they always need the assistance of parents to make the school a success.

The order in the schools has been good; without order progress must be slow and the school worthless. When a parent sends a child to school, the authority to govern the child goes with the child, and the teacher has the same authority to correct him for wrong-doing that the parents would have over him at home.

In a town where the families are scattered as here, the question of many small schools, or of as few as is practical with distance to overcome, will continually confront us. There is but little difference in the expense of supporting a small school or one of reasonable size. The incidental expenses would be about the same in either case. Teachers of ability command about the same price whether there be in the school five or twenty pupils.

Therefore, if we have many small schools, one of three things is inevitable—either the school fund must be increased, or the amount of schooling cut down, or cheap, incompetent teaceers must be employed.

In a conversation with the State Superintendent recently, he said that the object of the new school law was to reduce the schools in a town to the proper number, to divide the scholars as evenly as might be among the schools, to assist those living remotely in getting to school, and to abolish all district lines, so that children might attend wherever was most desirable. We have been impressed with the fact that we have a fine set of children in our schools at the present time.

We feel under a moral obligation to remark that there is altogether too much indifference on the part of some of the parents in Division 17, as to regular and punctual attendance of their children when the school is in session. The following report is taken from the school register of the past year, and shows the number of days some of the pupils were absent, out of a possible term of 50 days.

Mr. Woods' children are excusable in part, on account of

sickness, as reported to us by the teacher. It is the duty of parents to look well to the education of their children. An hour or two cannot be more profitably spent than with your children in the schoolroom.

Your interest would encourage them to be more punctual, and they would strive to attain a higher rank and a better record. It is a deplorable fact that some scholars absent themselves day after day for no reason except that they do not care to attend school and so stay away. If such scholars have not made an advancement it is not because the teacher has failed in her duty.

Irregular attendance of pupils is a great evil everywhere, as is shown by the legislation on the subject An enlightened public opinion is the best remedy. When parents and others can be brought to recognize, first, the prime necessity to all of a common school education and second, the fact that it is just as necessary for a successful scholar to attend regularly to his business, as for a successful merchant or banker to his—then, and perhaps not until then, will this evil disappear. Chapter 93 of the revised Public Statutes requires that every child between the ages of eight and sixteen years, unless excused by the school board, shall attend school each year twelve weeks, "six weeks at least of which shall be consecutive," and provides suitable penalties for neglect of the requirement. Chapter 93 also gives the district power to make by-laws concerning truants, and Chapter 92 authorizes the school board to appoint truant officers, who "shall, under the direction of the school board, enforce the laws and regulations relating to truants and children between the ages of six and sixteen years." Let us do all in our power to give them such religious, moral, and intellectual training that when grown up to take our places, Hillsborough shall retain in the future, as in the past, its good name for the intelligence and worth of its citizens.

JOHN W. JACKMAN,
ALDEN P. FARRAR,
FRANK J. BICKFORD,
Board of Education.

WARRANT TOWN DISTRICT.

To the inhabitants of the town school district in the town of Hillsborough, qualified to vote in district affairs:

You are hereby notified to meet at the school house at Lower Village, in said district, on the sixteenth day of March, 1893, at one o'clock in the afternoon, to act upon the following subjects:

1st. To choose a Moderator for the ensuing year.

2d. To choose a clerk for the ensuing year.

3d. To choose a member of the school board for the ensuing three years.

4th. To choose a treasurer for the ensuing year.

5th. To see if the district will vote to raise money for repairing of school houses or for other school purposes, and if so, how much.

6th. To hear reports of agents, auditors, committees or officers heretofore chosen and pass any vote relating thereto.

7th. To choose agents, auditors and committees in relation to any subjects embraced in this warrant.

Given under our hands at said Hillsborough, this 25th day of February, 1893.

JOHN W. JACKMAN,
ALDEN P. FARRAR,
FRANK J. BICKFORD,
School Board.
